

JOYDEEP PAUL

Frontend Developer (React.js)

Asansol, West Bengal, India | Contact : +91 9635172639 | Email : joydeepnp8821@gmail.com

Portfolio: [paulhere.netlify.app](#) | GitHub: [github.com/joydeep-07](#)

SUMMARY

Frontend Developer with hands-on experience building responsive, component-based web applications using React.js, JavaScript (ES6+), Tailwind CSS, and modern frontend tooling. Skilled in REST API integration, reusable component architecture, state management, and performance optimization through lazy loading. Familiar with backend fundamentals (Node.js, Express.js, MongoDB, Supabase) for building full-stack features. Passionate about writing clean, scalable, maintainable code and eager to contribute to a React.js development team.

SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, React Hooks, Component Architecture, Reusable Components, Responsive Design, SPA Development, Tailwind CSS, Bootstrap, Framer Motion, GSAP

Backend: Node.js, Express.js (Basics)

Databases: MongoDB, Supabase (Backend-as-a-Service)

Tools & Platforms: Git, GitHub, Vite, VS Code, Postman, NPM

Concepts: REST API Integration, Performance Optimization, Lazy Loading, Cross-Browser Compatibility, Version Control

EXPERIENCE

Computer Instructor | Kendriya Vidyalaya Sangathan | April 2026

- Teach computer science concepts and practical programming to students across multiple grades.
- Guide students in HTML, CSS, JavaScript, and web development fundamentals.
- Prepare lesson plans, presentations, assessments, and technical documentation.
- Manage digital records and support day-to-day administrative office work.

Frontend Developer Intern | Unified Mentors | 3 Months

- Built responsive React.js user interfaces using reusable components.
- Integrated REST APIs and collaborated using Git/GitHub in a team workflow.
- Improved application performance and fixed UI issues across devices.

PROJECTS

Note Management System | *React.js, Tailwind CSS, Framer Motion, GSAP*

- Built a responsive note management web app with a clean, user-friendly dashboard for creating, editing, and organizing notes.
- Implemented dynamic CRUD operations via REST API integration, using efficient state management to keep the UI in sync with data changes.
- Architected reusable, modular React components to improve scalability and simplify future feature additions.
- Improved page load performance using lazy loading and added smooth UI animations with Framer Motion and GSAP.

Developer Portfolio | *React.js, Supabase, Tailwind CSS*

- Designed and built a fully responsive personal portfolio website to showcase projects, technical skills, and contact information.
- Integrated Supabase for secure data handling and dynamic content management, enabling real-time content updates.
- Followed component-based architecture best practices to build modular, reusable UI components across the site.

WhatsApp Clone | *React.js, REST APIs*

- Designed and developed a responsive real-time chat interface with modern UI/UX principles.
- Implemented dynamic message rendering with real-time updates for a seamless, low-latency messaging experience.
- Built protected routes and frontend session handling to manage secure user navigation.
- Ensured mobile-first responsiveness and optimized rendering performance for smooth chat interactions across devices.

EDUCATION

Bachelor of Computer Application (BCA) 2022 – 2025 | *Kazi Nazrul University*

Relevant coursework : Web Development

Higher Secondary (Class 12), CBSE 2022 | **Secondary (Class 10), CBSE** 2020 | *DAV Public School, Rupnarayanpur*
