

JOYDEEP PAUL

Frontend Developer | React JS | JavaScript

Frontend Developer skilled in building responsive, user-focused web applications using React.js and modern JavaScript. Strong understanding of component-based architecture, UI optimization, and performance-focused development. Experienced in collaborating on individual and team-based projects, with basic backend knowledge to support full-stack workflows.

PROJECTS

Note Management System

- Developed a full-stack note management system enabling user authentication, authorization, and personalized note management.
- Implemented CRUD operations, text editing functionality, and PDF export support.
- Built a responsive and interactive UI using React.js, Tailwind CSS, and Framer Motion.

Developer Portfolio

- Designed and developed a fully responsive personal portfolio website to showcase projects, technical skills, and contact information.
- Integrated Supabase for secure data handling and dynamic content management.
- Implemented reusable, modular React components following component-based architecture best practices.

Movie Ticket Booking Website

- Developed a component-based React application focused on movie ticket booking UI.
- Created modular and reusable UI components for consistent design and scalability.
- Improved code structure, readability, and maintainability for long-term development.

EDUCATION

Bachelor of Computer Application (BCA)

Kazi Nazrul University (2022 - 2025)
GPA: 7.27 / 10

Higher Secondary Education (HS)

D.A.V Public School
2020 – 2022
